My dearest Lennie

Charlie sent Miss
Parrish (who will forward it)
a long answer to your Committee
letter - in time for your
next Mtg.

I had a long talk with Mr.
Mueson yesterday. He
is seriously keen abt.
P.A.S. - says they have
4 Elem. Schs. & a Comm. Sch
at Clithorne & he is Chairman
& it is just the place to work

our scheme in. Poor man,
 it is just recovering from
 a long & anxious illness
 must have his better rest.

but I think he will begin at
 once - books are — ^{crabfoot} difficult!

His idea is a Conversation
 with you & Miss Brink.

immediate conversion of
 everybody, — presto we begin!

It seems really to run
 education in Clith.

I have not lately had a visitor
 of the Lady in her garden - all
 in series! but please attend
 upon Hotel - Langemannstr. ^{Precon} ~~South~~

 is just a good deal better than
 any my talk. All our Babies - &

as ever they will be.

So far we have had our hotel
to ourselves - very restful &
pleasant. The more so as I am
not to begin bathing till Thursday.
After that, well, one has not
much energy left.

I am sitting under a pine tree
in a lovely garden with the lovely
view. & so far we are the only
guests in this house - very
restful & pleasant. The ~~other~~
Manager, a fine & admirable
person, has met me in the most
kind & pleasant way, but that
most dear & most kind G. H.
saves me from overkindness
& over coldness alike - and just
for our sakes. In love to 3.

I send - my letter to you - but in
the business part of it - to show
Perrish in case questions arise
at the Conference which it is
unable to answer. Mr. Smith
is to send it on to you - as I thought
it might cause difficulties of this sort ^{which would}
this paper would delay it for very
much. He has such a proof
of our principles & rather of
our purpose & results - the whole
thing is most inspiring & was
received with enthusiasm.

How nice about Dr. Hummels
- Mr. Coffin - Miss Ambler has not
sent the copy but no doubt - the
letter was very pleasing. I
am astonished at the changes

you posted. Fanny Davis brother
going (?) to Miss Westcliff's school.
Miss M. will no doubt introduce
us to her new school.

How I love to think of you as
your nursery of schools!

I also of the Lady in her garden.
I love to love her appearance
at Highfield - Have you heard
any more from Mr. Baines?

Dear love 14 June 28

Love yours

Dear Mother
I am so glad to hear
of your little business
I am sure it will
be a success.

I have never seen
delighted I am about it
how slow all your splendid
work in the schools. But I
have been ill. I am fairly
mended now but the Dr. will
not get let me have the better
of which I cannot so I could
not have gone to the play in any
case. For nearly all the better
have yet to come off.

Never mind. They gave me quite
a good year's work of your
little business.

How delighted to hear 'The Boys'
at home in such ease. Are
the eyes all right yet? or does
Tony have high jammers with this
Taddy? How I should love to
see them together!

I could picture the lady in
her garden all the time because
we have had showers of rain here.
All the same, the country is very
pretty but I long for Aunt's light
& those dear delightful visits that
make our days gay! The Sisters!

You don't know how I long to see
you! Mr. Mawley is immensely
impressed by all he saw & I
let him see your letter about the defective
child in. during his time. I must
send his letter about it to you.

to Mum's. That I have left - you at
this time without a letter! But - life has
been very full - of letters. accumulated
in the holidays -

I am so glad you went - to see the
party from her - Canon D. is working
very seriously in Birmingham, Carlisle

& other places. It seems to be definitely taking
up the work. Mr. W. B. has only now got
home & tells me that they visited 8 schools,
1 Boys' & seven girls. Miss Cropper too,
writes us on seriously impressed -
but of course when so much ground
was covered it was impossible to write
in great detail after the fashion of
your delightful reports -
Of course our dear Miss Ambles (whom

You have brought up) takes the palm.

Anyway, dear, our pen-work is going
& proving.

E. H. is now at home & has a big
school at- taking on hand which he hopes
to bring up to the mark - I forgive this
abominable writing - the daylight waves
& the light is on my right-hand!

I rejoice in your Sheffield friend -
I shall ask you to find an introduction

to her to Miss Brownell (an old student) who
did a good deal there in her summer
holidays, & is to take up the work at Exeter
(perhaps meet Mr. Lishes!) It will be
a great thing for her to find a helper who
lives at Sheffield.

How good about Dorothey! I am
rejoicing in my dear's health after
an anxious summer in it. The

from that delightful Edinburgh holiday. I must
have say some one will find extraordinary letters & I want
news of the Edinburgh family. Thank you for telling
me the snapshots of Paul & Tony. They are
delightful, but how the war has got on the faces.
His brow is lined like that of a man of forty or fifty -
& how full of power he looks! Send me similar
news of the Edinburgh family.

We advance - Canon Bensonley has been preaching
what he calls our "Gospel" up & down - at Derry
now in Carlisle (where he is in residence) & Miss
Parish who is coming here for a ~~few~~ few days is
to go there to meet the Rev. on Nov. 3rd - Miss Cropper
has been here & is ready to - proclaim! That
nice Mr. Household writes, "The children have
plunged into the wealth of books with a whole
hearted enjoyment" (the Flouresbury Schools)
Mr. Rankins is shortly to speak to teachers
& Inspectors in Dublin. Miss Webb has

visited a convent school in Waterford which is
doing great things - T. + - All kindest cheers you
(+ me) dearest - to convince you that your
labours has not been in vain. - This Parish
knows of all - that dear Miss Ambles writes
that - she is expecting her 173rd visit within the
two months - she, no less than a professor
from Trinity Univ. I think with dismay of all
the letters & all the correspondence this implies - but
she uses it for the cause - as we all do.

but - still subject to - the War.

You never tell me of your anxieties, but
all the same, I will confess mine - e.g. Shall
we have any students in next-year, or
will all the girls run off to War work of some
kind - I don't wonder that they should but it is
difficult to "carry on" all the same. I am glad to hear of
